## Projects:

**Adit :** Technology: Angular (Web), Node.js (Sails.js, Express), Svelte.js, Electron.js (Desktop App)
**Involvement:** In this product i have worked in the calling module, there we are recorded all the external calls for the details of the patients.
In the calling there are some features like voice mail , hold music, faxes,  add soft lines support plivo,
Also I have worked with the SMS module where we have used plivo for communication like call or SMS, file upload,
Worked with patients modules like we are add manually patients or some patients come from SMS, call or from appointment booking, Patient listing
Worked with stripe payment for patients payments or little bit worked with module billing.
Also worked in real time chat for internal users of organizations.
I'm working in electron.js app we are loading one angular app for same view of web app but there we have based on desktop conditionally add or remove, also in desktop using pubsub bind Realtime notification updates.

**Renault Rent:** Technology: Angular, .NET (MVC), HTML, JavaScript, Bootstrap
**Involvement:** In Renault my role to handle front side some modules like, in 1 hour gap select a car for rent, In listing add cart to car or remove car from cart, order list create users, Login users integration API, validation etc.
**BTT:** Technology: Angular, .NET (Core), HTML, JavaScript, Bootstrap (ASPZERO)
**Involvement**: Bluetooth Device Integration, Real-Time Data Fetch, Doctor-Patient Interaction

## Restaurants App

Technology: Angular, HTML, JavaScript, Bootstrap (Nebular Theme)
**Involvement:** Roles for Customer, Restaurant Manager, and Admin; Menu and Order Management; PayPal Integration
